

Statement of REACH Compliance under due consideration of the SVHC-list

This document certifies that Comtec Crystals products are compliant with the REACH regulation of the EU, EC Number 1907/2006, which entered into force on June 1st, 2007 regarding the Registration, Evaluation, Authorisation and Restriction of Chemicals (=REACH) in industrial products.

Chemicals meeting the criteria outlined in Article 57 of the REACH Regulation are referred to as Substances of Very High Concern (=SVHC). For the current listing of these substances, refer to

<https://echa.europa.eu/candidate-list-table>

Chemical substances are continually added to this list. Updates are continually monitored and are included in this statement.

SVHC's must be reported unless the percent (w/w) of the contained substance is less than 0.1% and imported in the amount of less than one ton per year.

As of January 5th, 2021, detailed information about all products containing SVHC's above this limit must be reported to the ECHA for listing in the SCIP (= Substances of Concern in Products) data base.

The Quartzes, Oscillators, Resonators and Accessories from Comtec Crystals do not contain any substances exceeding 0.1 % (w/w) and one ton yearly. For this reason Comtec products also do not have "SCIP-Numbers".
